

## PCA Awarded Star Performance Award

### PCA Awarded Star Performance Award

Precision Cable Assemblies has been awarded the Spartan Motor's Outstanding Supplier Performance Award for the third year in a row. PCA is one of only four companies to receive this award for three consecutive years. This award is based on delivery, quality and cost reduction performance.

"Winning this award has been the result of total teamwork; from customer service through production. Our goal is to be the first supplier to win this award four year in a row."
