

## ISO 9002

### ISO 9002

November, 2002 - Precision Cable Assemblies is proud to announce they have been recommended for recertification to the ISO 9002 standard following a continuing effectiveness surveillance audit conducted by Dave Shearer of Intertek Services. A milestone plan has also been created to upgrade current procedures to reflect the changes established by the ISO 9001:2000 standard. Precision Cable will be compliant to the new standard by December, 2003.
