

## Spartan Motors Visits PCA

On June 5th, 2008 Spartan Motors made a special stop at Precision Cable Assemblies to display their new fire truck design.

**FIRE TRUCK WITH TWO CABS MAKES DRIVERS DO DOUBLE TAKE** Find Out Whether This Unique Double Cab Fire Truck Is Coming or Going

(Brookfield, WI) June 3, 2008 - Precision Cable Assemblies invites local media to tour Spartan's unique "Double Cab Demo Chassis" fire truck, which is constructed from both the Metro Star and Gladiator cabs on Thursday, June 5, 2008. The Double Cab Demo will be parked in front of Precision Cable Assemblies offices where employees and members of the media can tour the truck from 11:00 a.m. to 12:30 p.m.

Precision Cable Assemblies produces the battery cables used in Spartan's fire trucks and is excited to provide an opportunity for employees and the media to see where their products are being used.

Spartan Chassis, Inc., a world leader in the design and production of high-performance custom chassis for Class-A motor homes, military vehicles, and fire trucks, and a subsidiary of Spartan Motors, Inc (NASDAQ: SPAR) has recognized Wisconsin-based Precision Cable Assemblies, LLC as "Supplier of the Year" for a second time.
