New Corporate Materials Manager Named

In its effort for continual improvement, Precision Cable Assemblies announces the addition of Nadyne Peters as Corporate Materials Manager.

As Corporate Materials Manager, Nadyne will be responsible for materials procurement and inventory control for not only Precision Cable, but also its GEP and GEPP divisions. She and her department will be responsible to improve our buying power and better control component inventory with the ultimate goal of providing better service to our customers.

Ms. Peters provides 12 years of purchasing experience and inventory control. For the past 6 years she was Materials and Inventory Control Manager for GEP (Global Engineered Products), a division of Precision Cable Assemblies.
